

# HANDCREME

For noticeably soft, nurtured hands

**Daily care for your hands with delicate, fast absorbing RyBeauty Hand Cream. Organic sea buckthorn oil, organic avocado oil, organic aloe vera and organic olive oil provide your hands with all-round care and form a protective layer on your skin.**

Our hands are put through a lot, even daily hand washing draws the oils out of the skin and weakens its "protective layer". The rich active ingredients in RyBeauty Hand Cream support rapid regeneration, making even raw and damaged hands silky and soft once again. Natural cosmetics - simply good for your hands!

## Active ingredients:

**Organic sea buckthorn oil:** supports the regeneration of the skin and mucosa, promotes epithelialisation and granulation.

**Organic avocado oil:** particularly gentle for sensitive skin and prevents it from drying out

**Organic aloe vera:** is moisturising and soothes weathered, irritated skin

**Organic olive oil:** supports skin regeneration, makes the skin smooth and silky. Supports the formation of the skin's hydrolipid layer

**Tocopherol (Vitamin E):** reduces inflammation, promotes wound healing

## Plankton extract

A special feature of the RyBeauty Cosmetics Range is the plankton extract which is taken from **marine plankton**. The following effects have been proven in studies: It improves the skin's physical barrier, its chemical barrier and supports rapid regeneration of the skin's hydrolipid layer.

**Ingredients from the sea - for healthy skin!**

## The five pillars of RyBeauty Cosmetics

1. **Care and repair:** Sea buckthorn oil supports the skin's regeneration and promotes healthy skin along with vitamin E.
2. **Protection:** The four organic oils and, in particular, plankton extract strengthen the skin's protective layer.
3. **Anti-ageing:** The moisturising ingredients help to produce smoother skin.
4. **Natural cosmetics:** With the "Natrué" seal, we confirm that our products meet 100 % of the requirements for natural cosmetics.
5. **Hypoallergenic:** Only well-tolerated substances are used in the products. The products have been dermatologically tested.

As with **all RyBeauty Products** our Hand Cream is

- free from petrochemicals and mineral oils
- free from paraffin
- free from silicon oils
- free from petrochemical substances
- free from synthetic fragrances
- free from sodium-laureth-sulphates and sodium-lauryl-sulphates

# HANDCREME

For noticeably soft, nurtured hands

- Natural cosmetics given the Natrue seal of approval
- Dermatologically tested on skin
- free from allergens
- free from preservatives
- with plankton extract - the power of the sea

## Application

Apply to the hands several times a day as required. The Hand Cream is absorbed quickly and forms a protective layer on the skin.

## Note

Even raw elbows can be made smooth again thanks to RyBeauty Hand Cream.

## Skin type

Compatible with all skin types
